

# WEST BROAD ST. CORRIDOR HIGH CAPACITY BUS RAPID TRANSIT

COTA

## PROJECT SUMMARY

A new \$290 million, 9.3 mile long, West Broad Street BRT Corridor from Rockbrook Crossing Avenue to Washington Avenue and Long Street in Downtown Columbus. The project will provide 17 stations, a new park & ride/transit center, end of line layover facilities, and electric vehicle charging at the western terminus. It will also include off-board fare collection, near-level boarding at stations, transit signal priority, and bicycle and pedestrian improvements

## BID PACKAGES

Tree Removal	Roadways Package	Signage	Landscaping	Rockbrook GC	Stations
